## Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated on the right side of the Sara-Serajunj Railway, in the district of Pabna, will be put up to sale on the 16th August 1920.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited.

If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

**PUBLIC WORKS DEPARTMENT, BENGAL.****DISTRICT ROAD FUND.**

*Notification dated the 10th September 1920.*—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling District for the year 1919-20, together with the remarks of the Commissioner of the Rajshahi Division thereon, is published for general information.

C. P. WALSH,  
Secy. to the Govt. of Bengal.

*Extract from letter No. 380 P.W., dated the 10th July 1920, from D. H. LEES, ESQ., I.C.S., Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

2. During the year 1919-20 the receipts amounted to Rs. 91,647 and the expenditure was Rs. 72,456. The closing balance which was Rs. 1,00,865 at the end of the year 1918-19 was further increased and amounted to Rs. 1,20,056 at the end of the year.

3. Despite the large resources of the Committee a sum of Rs. 630 only was spent on original works in preliminary expenses of a new road improvement project. It is not explained in the report why no original works were undertaken during the year, but it appears that the subordinate staff under the District Engineer was not appointed until late in the year. New projects estimated to cost about Rs. 47,000 were sanctioned during the year, and it is hoped that these and other necessary improvements of communications will now be carried out. A sum of Rs. 30,377 was spent on the repairs of roads, most of the works being done by the members of the Committee, managers of tea gardens and other gentlemen. There was no addition to the roads maintained by the Committee. The balance of the loan taken from Government in 1900 was fully paid up during the year.

*Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1919-20.*

[Vide letter No. 184 F., dated the 28th June 1920, from S. W. Goodo, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

**1. Working of the Committee—**

(a) *District Road Committee.*—There were 18 members of the Committee, 6 official and 12 non-official. Seven meetings were held during the year, the average attendance being 10 or 55·5 per cent. at a meeting.

(b) *Kurseong Branch Road Committee.*—The total number of members of this Committee was 9, 2 official and 7 non-official. Five meetings were held during the year. The average attendance was 3·8 or 42·2 per cent. at a meeting.

(c) *Terai Branch Road Committee.*—There were 16 members of this Committee, 2 official and 14 non-official. Five meetings were held during the year. The average attendance was 5·4 or 33·75 per cent. at a meeting.

2. The year opened with a cash balance of Rs. 94,186-15-3 and an outstanding advance of Rs. 6,677-10-9, making a total of Rs. 1,00,864-10. This amount together with receipts of Rs. 91,647-10-5 or a total amount of Rs. 1,92,512-4-5 was available for expenditure during the year. The actual expenditure during the year was Rs. 72,455-15-7 excluding the unadjusted advance of Rs. 5,456-15-3. The actual cash balance on the 31st March 1920 was Rs. 1,14,599-5-7. The closing balance of Rs. 1,20,056-4-10, including the unadjusted advance of Rs. 5,456-15-3, exceeds one quarter's kist of the annual receipts. A portion of this unadjusted sum was expended, but no accounts having been received within the year it could not be adjusted. The closing balance is, however, expected to be reduced in the current year to its normal proportions, the District Engineer and his full staff of subordinates having now been appointed.

### RECEIPTS.

3. **Provincial Rates.**—The road cess was levied in the district during the year by the Committee at the maximum rate of six pies in the rupee. Rupees 61,363-2-11 was collected under the head "Cess on lands" during the year against Rs. 61,051-15-8 in the previous year. The slight increase calls for no explanation.

#### 4. **Contribution.**—

(a) *Grant from Government.*—A sum of Rs. 11,082-7-6 was received from Government, including Rs. 6,625 on account of augmentation of resources of the Committee, against Rs. 7,537-11-10 in the previous year. The increase is mainly due to the amounts of the previous year being credited on account of 14 per cent. collection from Government estates during the year.

(b) *Contribution from Darjeeling Improvement Fund.*—A contribution of Rs. 19,142 was received under this head towards communications and its share as usual of the cost of the Joint Cess and Towjee Establishment and for Darjeeling Improvement Fund works against Rs. 8,830-7-7 in the previous year. The increase is due to the increased expenditure incurred by the appointment of a District Engineer and his subordinates, at the joint cost of the Road Fund and Darjeeling Improvement Fund.

(c) *Contribution from local bodies, etc.*—A sum of Rs. 60 was received from the Darjeeling Municipality during the year on account of collection of location rent.

7. **Public Works Establishment.**—The District Engineer was appointed in 1918 and his staff during the latter part of the year. All works done in the hills and most of those done in the Terai were executed, under the supervision of the District Engineer, by the members of the Committees and by the managers of tea gardens and other private gentlemen for which the thanks of the Committee are due to them. The important road cess bridges were repaired partly by the District Engineer and the Public Works Department. A sum of Rs. 18,126-12-7, including travelling allowances and contingencies, or 36·7 per cent. of the total outlay on works under the head "45 Civil Works" was spent for the entertainment of the Establishment referred to above. If the contribution of Rs. 11,950 made by the Darjeeling Improvement Fund for the works of the fund carried out by the Road Fund Public Works Establishment be deducted, the outlay of the Committee actually works out at Rs. 6,176-12-7 or 12·5 per cent.

10. **Contribution to Darjeeling Improvement Fund.**—Rupees 8,195 was contributed to the Darjeeling Improvement Fund out of the Public Works Cess surrendered by Government towards medical aid and water supply.

11. **Loan.**—No fresh loan was taken during the year. A sum of Rs. 6,960-5-1 as principal and Rs. 351-7-10 as interest were paid during the year under the terms of the loans granted by Government in 1900 and 1901 for reconstruction and repairs of bridges destroyed and damaged by the cyclone in September 1899. The loan granted by Government in 1900 was fully paid up during the year.

8. Although no guarantee can be given as to the employment of an ex-scholar in Government service, Government is anxious to secure promising Indian recruits for the Archaeological Department, and should a scholar prove himself capable of good work, there is every prospect that he will find an opening in this Department. ### NOTIFICATION.

No. 1017L., dated Calcutta, the 6th August, 1920.—The following Report of the Select Committee, which was presented to the Bengal Legislative Council on the 4th August, 1920 (with the Bill as amended by the Committee), is hereby published for general information:—

**REPORT OF THE SELECT COMMITTEE ON THE INDIAN RED CROSS SOCIETY (BENGAL BRANCH) BILL, 1920.**

We, the undersigned Members of the Select Committee, to which the Bill to constitute a Bengal Provincial Branch of the Indian Red Cross Society was referred, have considered the Bill and have the honour to submit this, our Report, with the Bill as amended by us annexed hereto. In reprinting the Bill, all changes made by us have been underlined. The more important alterations are explained below :—

2. *Clause 4.*—We have considered it desirable to add a provision to this clause limiting the number of members of the Managing Body.

3. *New clause 5A.*—The rule making clause 8 of the Bill as introduced in Council has been transferred and placed before clause 6, following the arrangement of Act XV of 1920, as this appears to be more appropriate.

4. *Clause 6.*—We have revised this clause so as to make it follow more closely section 7 of Act XV of 1920, retaining the safeguard in regard to the purposes to which the funds of the Society may be applied. At the same time we deemed it desirable to add a provision enabling the Managing Body to apply all sums received by the Society for a specific purpose to that purpose.

5. We recommend that the Bill, as now amended by us, be passed.

**NOTE BY THE HON'BLE Mr. G. N. ROY.**

I HAVE signed the report. I think, however, that I ought to add a note. It is not a note of dissent, but it merely points out that the Red Cross Society (Bengal Branch), which we are constituting under this Act, will in no sense be a Branch Society of the Indian Red Cross Society as formed by Act No. XV of 1920. The Branch Society contemplated in section 8 of that Act is to consist of the members of the Indian Red Cross Society. Our members are quite a different body and will be appointed in a different manner. It follows that the income of the property shown in the schedule of the India Act cannot be made over to the Indian Red Cross Society (Bengal Branch).

Of course there is no practical difficulty in our getting the money. Under section 9 of the India Act the managing body of the Indian Red Cross Society may affiliate to that Society our Society and allocate funds. Or, the difficulty could be got over if the members of our Society were accepted as members of the Indian Red Cross Society, and we may then become a Branch Society of the Indian Red Cross Society.

## THE INDIAN RED CROSS SOCIETY (BENGAL BRANCH) BILL, 1920 ;

*Clause 3.*—In sub-clause (1) the words "which in his opinion is recently formed" have been inserted after the words "alluvial land" as we consider it necessary to restrict the application of the Bill to such lands only. In this clause we have also provided that the Collector shall record in writing his grounds before attaching the land.

Several minor alterations are not discussed.

*Clause 2.*—We have added the words "and includes reformatations *in situ*" after the definition of "alluvial land" in order to make the intention more clear. The definition of the "Collector" has also been slightly revised so as to include subdivisional officers who are responsible for the tranquillity of the subdivisions under their charge. The words "not below the rank of a Deputy

We have also considered it desirable to add a proviso in the interest of the owner of the land restricting the period of settlement to three years.

*Sub-clause (3)* has been slightly revised so as to make it clear that the application to the Collector must be made before the reference is made to the Civil Court.

*Clause 4.*—This clause has been redrafted. It provides that the survey made under this section shall be deemed to be a survey under the Bengal Survey Act, 1875, and requires the Collector to take action as soon as possible. We have also considered it desirable to make a provision declaring that a map prepared under this section shall be presumed by the Court to be accurate.

*Clause 4A.*—This new clause which reproduces sub-clauses (2) and (3) of clause 4 of the Bill as introduced in Council sets out more fully the procedure to be followed by the Civil Court in dealing with a reference. The reference is declared to be a suit for all the purposes of the Code of Civil Procedure, 1908, and it has been made clear that the decree is subject to appeal. It has also been provided that the costs incurred by the Collector under clauses 3 and 4(1) shall be at the discretion of the Civil Court.

*Clause 5.*—We have slightly revised this clause in order to give effect to the suggestion that the Collector shall put the person stated in the Court's order to be entitled to the land in possession thereof.

*Clause 6* has been slightly modified with a view to carrying out the suggestion that only the costs which the Collector has incurred when a proceeding is cancelled should be recovered by him.

We recommend that the Bill, as amended by us, be passed.

**STATEMENT OF OBJECTS AND REASONS.**

In 1919 the Government of Bengal instituted inquiries regarding the constitutions of other Port Trusts in India, with the object of determining whether the existing constitution of the Calcutta Port Trust, according to which the Chairman's office is honorary and the salaried Vice-Chairman is the Chief Executive Officer of the Trust, should not now be modified and legislative provision made for the appointment of a full-time salaried Chairman. While this question was under examination the Chairman of the Port Commissioners, Calcutta, addressed Government on the same subject and urged that the time had arrived for bringing their constitution in this respect into line with the system of administration that prevails in other Ports in India. The Commissioners recommended that the Chief Executive Officer of the Trust should be a full-time salaried Chairman and should be appointed by Government in consultation with, or on the nomination of, the Port Commissioners. They further recommended that the law should be amended to provide for the appointment of a full-time salaried Deputy Chairman, who would relieve the Chairman of his less important function and preside over the meetings of the Commissioners in the absence of the Chairman. In making these proposals they were actuated by a desire to make provision for an administrative organization adequate for the efficient discharge of the growing business of the Port.

The above suggestions of the Port Commissioners have the approval of the Governor in Council. A draft Bill amending the Calcutta Port Act, 1890 (Ben. Act III of 1890) has accordingly been prepared to give effect to these suggestions.

The final orders of the Government of India regarding the organisation of the Bengal Engineering Service and Subordinate Engineering Service are awaited. Meanwhile all matters relating to these services, including those referred to by the Hon'ble Member in this and the following questions, are engaging the attention of the Local Government."

Examination of students of the Sibpur Engineering College and of other Engineering Schools.

*Questions and Answers.***By the Hon'ble Babu Kishori Mohan Chaudhuri:—****\*II.**Assistant

Are the Government considering the desirability of increasing the number of guaranteed posts of Assistant Engineer for the Sibpur Engineering College and of raising the initial salary of those graduates who fail to get the guaranteed posts?

**Answer by the Hon'ble Mr. Cowley:—**

"The number of guaranteed posts of Assistant Engineer is fixed by the Government of India and under their orders an apprentice engineer from the Civil Engineering College, Sibpur, is posted to the Bengal Public Works Department establishment and to the State Railway establishment in alternate years. Graduates who fail to obtain guaranteed posts do not necessarily become members of any branch of the Indian Service of Engineers, but the pay of those who may accept appointments in the new Bengal Engineering Service will be regulated by the orders of the Government of India regarding the organisation of that service."

*Statement referred to in the answer to question No. X (starred) asked by the Hon'ble RAI SRINATH RAY BAHADUR at the meeting of 1st July, 1920, showing distress in the Gopalganj and Madaripur sub-divisions of the Faridpur district.*

There has been distress in certain thanas—especially in the *bhil* areas of the Gopalganj and Madaripur sub-divisions of the Faridpur district. The distress is attributed to (1) the general effect of the cyclone of last year from

*Questions and Answers.*

which the people in this area have not quite recovered yet; (2) the shrinkage of private charity; (3) the want of work, a usual thing at this time of the year; (4) high prices; and (5) the damage (the extent of which has not yet been ascertained) to the low land *bhil* paddy crop by the early rain in March last. The position has been aggravated by the fact that banks and *mahajans* have stopped giving loans because of their inability to collect their previous dues. The District Officer, Mr. J. N. Roy, O.B.E., who has visited the affected area and made personal inquiries, reports that the situation is not so serious as it was thought to be at first.

The following measures of relief have been undertaken:—

- (1) The provision of work for able-bodied persons on the construction of, and repairs to, roads undertaken by the District and Local Boards and the removal of water-hyacinth.
- (2) The provision of work for women on paddy-husking, for which purpose the District Board have made necessary advances.
- (3) The supply of Burma rice at controlled price. The District Board have arranged for the purchase of 1,000 maunds of Burma rice and the sale thereof at cost price in Gopalganj. A supply of 1,361 maunds of Burma rice has also been arranged for the Madaripur subdivision.
- (4) The grant of agricultural loans to cultivators. The Collector has been placed in funds to meet the demands for such loans.

Goalundo railway station platform.

(b) Are the Government considering the desirability of drawing the attention of the Railway Company to this inconvenience and of suggesting that wooden staircases be provided on all intermediate and third class carriages as is now done in the cases of first and second class carriages only?

Answer by the Hon'ble Mr. Cowley:—

“(a) Government are aware that there is no raised platform at Goalundo Ghat railway station.

(b) The alleged inconvenience to intermediate and third class passengers, and the proposals for remedying the same will be brought to the notice of the management of the Eastern Bengal Railway.”

(i) that in each of the passenger steamers plying between Narayanganj and Goalundo several well-furnished cabins, a dining saloon and a spacious front deck are provided for 1st class passengers; Steamer service between Narayanganj and Goalundo.

(ii) that only two unfurnished small cabins, one for ladies and another for gentlemen, without any deck, are provided in each of the said steamers for 2nd class passengers;

*Questions and Answers.*

(iii) that in each of these steamers the space between the 1st and 2nd class cabins is being used as a pantry, store room for fish and meat, and that a table is often placed there for the purpose of washing the plates of the 1st class passengers and very often mutton is hung up close to the 2nd class cabins and within view of the 2nd class passengers?

(b) Are the Government considering the desirability of drawing the attention of the steamer companies with a view to the removal of the aforesaid inconveniences of the 2nd class passengers and for the making of better arrangements for them?

**Answer by the Hon'ble Mr. Cowley:—**

“(a) (i) Yes.

(ii) (iii) and (b) The Hon'ble Member is referred to the answer given in July, 1919, to unstarred question No. 30 (b) (i) to (iv), a copy of which is laid on the library table. The Steamer Company have since reported that the question of improving the 2nd class accommodation on their Padma service steamers has been receiving their attention and that improvements are being effected on the various steamers from time to time. They add that the size and structural arrangement generally of these steamers do not permit of any radical improvements being made without serious encroachment upon the space allotted for 3rd class passengers, but that full consideration will be paid to the requirements of 2nd class passengers when building new steamers for the Padma service and that such measures as are possible will be taken to remedy the inconveniences from which they are now suffering.”

GOVERNMENT OF BENGAL, FINANCE DEPARTMENT RESOLUTION NOS. 373-441 T.—F.,  
DATED THE 29TH MAY, 1920, TO ALL COMMISSIONERS OF DIVISIONS, DISTRICT  
JUDGES, AND OTHERS.

The question of improving the pay and prospects of the menials in this Presidency drawing Rs. 12 and less having been under the consideration of Government for some time, proposals were submitted to the Government of India to raise their pay in order to render unnecessary the grant of grain compensation allowance. The Government

## Questions and Answers.

of India have now, with the approval of the Secretary of State, sanctioned the proposals of this Government with slight modifications regarding the pay of the process-serving establishment.

2. The rates of pay sanctioned vary in the different districts of this Presidency, which for the purposes of the scheme have been classified under three heads with reference to the cost of living, viz., group A, where the cost of living is great, comprising Calcutta, Howrah (Sadar), Darjeeling and the 24-Parganas (Sadar); group B, where the cost of living is moderate, comprising all the districts, save those included in groups A and C; and group C, where the cost of living is low, comprising Birbhum, Bankura and Midnapore. The menials have, for the purposes of the scheme, been divided into two broad classes, viz., (1) establishment menials, i.e., those whose pay is drawn on establishment bills, and (2) contingency menials, i.e., those paid from contingencies. The first class is also subdivided into (a) process-serving establishment, and (b) other establishment menials, e.g., orderlies, peons, messengers, duffries, record-suppliers, barkandazes, durwans, etc., etc. The rates of pay now sanctioned will accordingly be:—

		During first five years.	During 6th to 15th years.	After 15th year.
<b>For establishment menials—</b>				
(a) Process-servers in A and B districts ...		13	14	15
Ditto - ditto C " ...		12	13	14
(b) Other establishment menials in—				
A districts ...		11	12	13
B " ...		10	11	12
C " ...		9	10	11
<b>For contingency menials in—</b>				
A and B districts ...		9	} Irrespective of the length of service.	
C districts ...		8		

3. These orders will have effect from the 8th March, 1920, and the expenditure will be met from the provision of Rs. 10,00,000 made in the Miscellaneous Budget for the current financial year under revision of pay of menials.

4. After the introduction of the new rates of pay the war allowance sanctioned in memorandum No. 6242 F., dated the 12th June, 1919, should only be continued to those menials who do not benefit by the new scheme, and any menials who benefit by the new rates of pay must refund the war allowance already drawn for the period from 8th March, 1920, by deduction from the bills in which their increased allowances are drawn.

5. It has already been stated that the rates of pay have been so regulated as to include the sum they now draw in the shape of grain compensation allowance. In future the grant of grain compensation allowance should only be given when the price of the cheapest common rice is dearer than 8 seers to the rupee.

6. The Accountant-General, Bengal, has been instructed to give effect to the scheme at once and to arrange that all arrears of pay in accordance with this scheme may be disbursed with effect from the 8th March, 1920. Any communication that is desirable in this connection may be made with that officer direct.

(a) Are the Government aware of a feeling of disappointment and discontent among the members of the Bengal Provincial Executive Service on account of the inadequacy of pay and emoluments, proposed in the recent Bengal Government Resolution?

Pay and emoluments of the members of the Provincial Executive Service.

(b) Is it a fact that a more suitable scale has been allowed in the Punjab, the Central Provinces and the United Provinces?

(c) Are the Government aware of an opinion that has been expressed that prices are higher and economic conditions are more acute and that the nature of work done by Deputy Collectors and Deputy Magistrates is more important in Bengal than in any of the provinces named?

*Questions and Answers.*

(d) Is it a fact that the Secretary of State for India fixed the standard of pay at Rs. 250 to Rs. 1,200 and gave discretion to the Local Governments to work out schemes in their respective Governments?

(e) If so, are the Government contemplating the desirability of reconsidering the scheme proposed in their recent resolution and of taking steps to make the scales in Bengal the same as in the Punjab or in the United Provinces?

**Answer by the Hon'ble Mr. Stephenson:—**

"(a) Government's information is that the scale of pay recently sanctioned for the Bengal Provincial Executive Service was received with satisfaction by the service as a whole, but that this feeling was succeeded by disappointment when the scales sanctioned in certain other provinces came to be published.

(b) Different scales have been adopted in the provinces mentioned. The Government of Bengal are unable to express an opinion on their suitability in those provinces, but consider their own scale to be suitable to Bengal.

(c) The latter part of the question apparently has reference to paragraph 34 of the report of the District Administration Committee. The authority for the former part is not traced; it is a matter on which it is dangerous to generalise.

(d) The Secretary of State directed that the minimum pay on confirmation should not be less than Rs. 250 or more than Rs. 300; that the maximum pay in the time scale should not exceed Rs. 850; and that the pay of the selection grade or grades above Rs. 850 should not exceed Rs. 1,200. Within these limits he authorised local Governments to adopt such schemes as they considered appropriate to the conditions of their province.

(e) It is not proposed to reconsider the decision that has been announced."

23.

(1) Are the Government aware that the released *déténus* find great difficulty in obtaining employment in educational institutions and elsewhere owing to suspicion existing in the minds of the people that they are likely to incur the displeasure of Government by employing them?

Employment released of *déténus*.

(2) (i) Is it a fact that Mr. B. C. Chatterji, Barrister-at-Law, made a representation to Government on this subject and that the Hon'ble Mr. H. L. Stephenson communicated to him on behalf of Government the assurance that Government will neither object to, nor in any way interfere with, the released *déténus* obtaining employment in educational institutions?

(ii) If so, will the Government be pleased to consider the desirability of giving a similar assurance in regard to the private employment of released *déténus* in all places by all people?

Answer by the Hon'ble Mr. Stephenson:—

“(1) Government are aware that released *déténus* often have considerable difficulty in obtaining employment and that one of the reasons for this is the reluctance of private employers to take on men of their antecedents.

*Questions and Answers.*

(2) (i) Mr. B. C. Chatterji referred in a private letter to Mr. Stephenson to the question of the employment in educational institutions of persons who before their internment had been teachers in schools. In the course of his reply Mr. Stephenson said: 'The line laid down is the one I sketched out to you in our interview, namely this: there are obvious objections to a *détenu* or State prisoner taking up teaching as a profession, and Government cannot conscientiously give any facilities or assistance in obtaining teaching employment for these men. The Education Department naturally is rightly averse from having them in their service, and it would be most unfair for Government to put any pressure on that department, seeing that the responsibility for the welfare of the pupils lies on the Education Department. At the same time Government will not in any way interfere to turn these men out of employment as teachers if they are able to obtain it.'

(ii) The Hon'ble Member is referred to the *communiqué*, a copy of which is attached, issued by the Bengal Government on the 1st March, 1920."

*Press communiqué referred to in the answer to question No. 23 (unstarred) asked by the Hon'ble Babu AKHIL CHANDRA DATTA at the meeting of the 1st July, 1920.*

In connection with the recent releases from detention and surveillance of a number of youths who had been dealt with under Regulation III of 1818 and the Defence of India Act, it has been represented to the local Government that private employers, fearing harassment to themselves, are diffident about giving them employment. It is desirable therefore that the attitude of the local Government should be made clear.

It is the hope of the Governor in Council that these youths will speedily settle down to honest lives. The finding of regular and reputable work will conduce most speedily to this end, and the local Government have helped and are helping in individual cases to secure employment. So long as these persons keep clear of revolutionary conspiracy there is no intention of exercising surveillance over them. It is not appropriate that they should take up the profession of teaching, but there is no objection to their resuming their own studies.

CALCUTTA,

The 1st March, 1920.

(a) Is it a fact—

(i) that the Haterkool Oil Company, Limited, has constructed a row of privies for the use of their operatives within a few feet of the Haterkool bathing ghat at Konnagore, subdivision Serampore, district Hooghly?

(ii) that these privies emit bad odour and foul effluvia and that the foul water from them is discharged into the river Hooghly to the detriment of the health and to the inconvenience of the local people who bathe in the river and drink water therefrom?

(b) (i) Is it a fact that the people of the locality sent a memorial to the Sanitary Commissioner of Bengal?

(ii) If so, what steps have been taken in the matter?

(c) Are the Government considering the desirability of taking necessary steps for the removal of this grievance of the people of the locality?

Alleged grievance in connection with the Haterkool bathing ghat in Hooghly.

*Questions and Answers.*

**Answer by the Hon'ble Mr. O'Malley:—**

" (a) (i) The Haterkool Oil Company has constructed a four-seated aqua privy on their premises, which adjoin the ghat in question. The exact distance from the ghat is not known, but it is probably over 50 feet.

(ii) It has been reported that the privy emits a bad smell and is also obnoxious as the breeding place of flies. The effluent is discharged through a small filter bed into the river Hooghly.

(b) (i) The Sanitary Commissioner received a letter on the subject from Babu Hari Sadhan Banerji of Haterkool.

(ii) and (c) The officiating Inspector of Septic Tanks inspected the latrine; the Sanitary Commissioner also visited the place. The latrine having been found to be defective, the Company has been directed to make the necessary improvements. "

(a) Are the Government aware that the inhabitants of several villages on the other side of the Damodar river memorialized the District Board for the construction of two feeder roads from the Tarkeswar railway station (E. I. Ry.) to two places on the left embankment of the river? Construction of feeder roads.

(b) If so, are the Government considering the desirability of taking steps in the matter?

**Answer by the Hon'ble Mr. O'Malley:—**

" (a) The answer is in the affirmative.

(b) An application was received by the Hooghly District Board for the construction of two feeder roads from the Tarkeswar railway station to Kanaria ghat and Jeara ghat on the Damodar river. As the alignment to Kanaria ghat was unnecessarily long, the District Board have instructed their engineer to examine the feasibility of constructing a road from Tarkeswar to Kultikri. As Jeara is close to the Tarkeswar-Jamdara District Board road, the District Board have decided that the Union Board, which is about to be constituted in the locality should connect Jeara with that road. The intervention of Government does not appear to be necessary. "

(a) Are the Government aware that influenza has broken out in epidemic form in several villages within the Arambagh subdivision and that some people have succumbed to it? Outbreak of influenza in the Arambagh subdivision.

(b) If so, are the Government considering the desirability of calling upon the sanitary authorities to distribute influenza pills through itinerant doctors?

**Answer by the Hon'ble Mr. O'Malley:—**

" (a) and (b) The answer is in the negative. Neither the Civil Surgeon nor the Subdivisional Officer of Arambagh is aware of any outbreak of influenza, while the weekly reports of the Arambagh municipality show that there has been no case of influenza for two months. "

Narrowness of  
the main road  
from Mahes to  
Rishra.

(a) Are the Government aware that the main road from Mahes to Rishra in the sub-division of Serampore in the Hooghly district is so narrow in places that motor-car accidents occur and the road is dangerous to traffic?

(b) Are the Government considering the desirability of taking steps to remedy this grievance of the people of the locality?

**Answer by the Hon'ble Mr. Cowley:—**

"(a) No reports of motor-car accidents or danger to traffic owing to the insufficient width of the Trunk Road between Mahes at mile 11½ and Rishra at mile 14, in the Serampore sub-division, have come under the notice of Government.

The width of the crest of the road in the abovenamed miles varies from 19 to 40 feet.

(b) It has been ascertained that there is some congestion, at certain hours of the day, in the short length of ½ mile from mile 12½ to mile 13, where the crest of the road is from 21 to 32 feet in width. The congestion is due to local causes and could not be relieved without acquisition of valuable land at considerable expense. No project for widening this portion of the road has been initiated."

The Damodar river.

Will the Government be pleased to state—

(a) (i) Whether the report on the Damodar anti-flood reservoir scheme, the execution of which was entrusted to a special officer, Mr. Glass, has since been received by Government, and, if so, what action is being taken in the matter?

(ii) What is the probable estimated cost of the whole scheme?

(b) What improvements have been effected in the lower, middle and upper reaches of the Damodar river, and what total expenditure has been incurred up to the end of the quarter ending 30th June, 1920?

(c) (i) What steps have been taken to reclaim the Rohra khal, Gopimohanpur khal, Pagla khal, Behala Chak basins and other silted up khals within the flood zone, the improvement of which is necessary for the proper drainage of a vast submerged area?

(ii) How many refuge mounds are in course of construction along the whole length of the right embankment to give protection to villagers whose houses are close to the embankment, and what is the area of such mounds?

(iii) Are the Government considering the desirability of constructing similar mounds within the villages in the flood zone and lying at a considerable distance from the right embankment, and, if so, when the work is likely to be taken up?

(d) Whether the survey of the spill area in the contemplation of Government has since been completed, and, if so, what policy is to be pursued in the matter?

(e) The stage at which the proposed Damodar canal project, Devkhal project and Uchanala scheme stand at present and whether the Government are considering the desirability of taking up the scheme at an early date?

(f) When the reclamations of the Roukhini Daha and the Garool Bheel are to be taken up?

**Answer by the Hon'ble Mr. Cowley:—**

"(a) (i) and (ii) Yes, the report has been technically criticised and is now under further consideration; the estimated cost of constructing reservoirs alone amounts to 2 crores of rupees.

(b) The question is not understood; no proposals have been made for any improvement to the Damodar river.

(c) (i) The estimate of the Rohra khal project is now practicably complete; the project for the improvement of the Gopimohanpur khal has been examined and abandoned on technical grounds; no projects for the improvement of the Pagla khal or of any khal in the Behala Chak basins have as yet been taken up.

(ii) Five mounds are under construction, and twelve more will be taken up later. The area of the top of the mound is on an average 6,800 square feet and the average cost of each mound is Rs. 1,650.

*Questions and Answers.*

(iii) No; the cost of erection of mounds in the interior would be very heavy, and owing to the system of flood warnings introduced subsequent to the flood of 1913, it is reasonable to expect that in the event of a similar disastrous flood the people would have ample time to reach places of safety, and that no serious loss of human or animal life would occur.

(d) Yes, the survey has now been completed to the boundary of the Burdwan and Bankura districts; it is now being plotted on paper. The policy to be followed for the disposal of the flood water of the Damodar, as a result of this survey, is to push on with the excavation of the exit channels into the Rupnarain river. The Government of Bengal are now in correspondence with the Government of India regarding the purchase of a dredger, to cost 34 lakhs of rupees, for this purpose.

(e) The Damodar Canal project is being redesigned; it will take a year at least to complete. Recent technical study of the Reservoir project for controlling the floods of the Damodar shows that it may be essential to provide an escape for the flood water *via* the Devkhal into the Darkesar river. The proposal is a bold one, necessitating a long and careful investigation into the effect of such a scheme on the flood levels of the Darkesar. The Uchanala project has been completed.

(f) Nothing can be definitely stated as to when these projects will be taken up; the surveys are well in hand and more than half the survey work has been completed."

The Dacca Engineering School has been moved into the press building, and the buildings formerly occupied by it are being used for the accommodation of the first and second year students of the Dacca College so that an intermediate college may be started. The Superintending Engineer is at work on plans for additional buildings for another intermediate college which it is proposed to locate in the Jagannath College; and orders have issued for the acquisition of land for a third intermediate college in Gandaria. His Excellency the Governor has also written to the Secretary of State regarding the selection of candidates for some of the appointments in the Dacca University in anticipation of the constitution of the advisory committee referred to in section 50 of the Act before which the names of candidates will be laid. The Government of India have also been urged to appoint the Vice-Chancellor as soon as possible, and to arrange for his joining the appointment at an early date.”

By the Hon'ble Babu Sarat Chandra Chakrabartty:—

41.

Will the Government be pleased to state whether any steps and, if so, what steps have been taken to establish faculties of medicine and agriculture in connection with the Dacca University?

Answer by the Hon'ble Mr. O'Malley:—

“Faculties of medicine and agriculture cannot be established in connection with the Dacca University until the Dacca University Act comes into force. Under section 51 of the Act, however, the Vice-Chancellor may take action for the purpose of bringing the University into being; and when he is appointed it is proposed to consult him as to the possibility of taking preliminary steps to facilitate the establishment of faculties of medicine and agriculture when the University starts.”

(a) In reference to the reply given by the Hon'ble Mr. Stephenson to the question of the Hon'ble Babu Kishori Mohan Chaudhuri at the meeting of the Council of the 7th April, 1920, that a final decision would shortly be arrived at in respect of the reorganization of the Provincial Judicial Service, are the Government aware that a feeling of uneasiness and anxiety prevails amongst the members of that service in consequence of no *communiqué* having been yet issued on the subject?

(b) Will the Government be pleased to state—

(i) whether the Government of India have finally expressed their opinion on the adoption of the scheme in Bengal;

(ii) whether the Hon'ble Judges of the High Court have been consulted in the matter, and, if so, will the Government be pleased to lay on the table the considered opinions of the Hon'ble Judges, if received;

(iii) whether any final decision has been arrived at by Government on the subject; and

(iv) when it can reasonably be expected for the decision of Government to be made public?

Answer by the Hon'ble Mr. Stephenson:—

“(a) A few letters have been received from members of the Service expressing the wish that early orders may be issued regarding their future pay, and articles to the same effect have appeared in the press.

(b) (i) The orders of the Government of India are awaited on the maximum pay for munsifs proposed by the local Government.

(ii) The Hon'ble Judges of the High Court were consulted on the whole scheme, but at this stage it is not proposed to make public the papers.

(iii) and (iv) The final decision of Government must await the orders of the Government of India on the subject of the maximum pay for munsifs. The orders of that Government may be expected shortly, and the whole scheme of emoluments will then be published.”

(b) Will the Government be pleased to lay on the table a short statement of the work done by the Department of Industries during the last six months, particularly on the following heads—

- (i) information supplied to *bond fide* industrialists;
- (ii) expert advice given;
- (iii) promotion of new companies guided;
- (iv) factories erected or designed;
- (v) industrial concerns visited;
- (vi) industrial research undertaken;
- (vii) markets for local manufacture found; and
- (viii) industrial and technical education organised?

*Questions and Answers.*

(c) Has the Director of Industries submitted any scheme for—

- (i) the collection of industrial intelligence;
- (ii) the development of cottage industries;
- (iii) the establishment and working of demonstration factories; and
- (iv) financial aid to industries?

(d) In reference to the replies given to Unstarred Questions Nos. 18 and 25 asked at the meetings of Council of the 3rd February and 5th March last, will the Government be pleased to state—

- (i) whether the consideration of the proposal of the Director of Industries is near completion;
- (ii) whether the proposal is being considered by this Government, the Government of India or the Home Government; and
- (iii) when the proposal was submitted?

**Answer by the Hon'ble Mr. Marr:—**

“(a) It is understood that, generally speaking, the recommendations of the Industrial Commission were welcomed by the educated public.

(b) A copy of the Report on the Administration of the Department of Industries up to the 31st December, 1920, was laid on the table at the meeting of the Legislative Council on the 3rd February, 1920. (b) what training and experience he has had regarding fishery matters;

(c) whether the above officer is also the special Fibre expert to the Government of India, and if so, what are his allowances as such;

(d) what work he has done in that capacity up to date;

(e) how many days he was out on tour in connection with this work and in what localities;

(f) (i) Is it a fact that Dr. Bainsi Pershad of the Fisheries Department resigned his post,

The Director of  
Agriculture  
and Fisheries.

*Questions and Answers.*

- (ii) if so, what were the reasons for his doing so,
- (iii) what were his qualifications in regard to fishery matters, and
- (g) What are the qualifications of the Superintendents of Agriculture?

**Answer by the Hon'ble Mr. McAlpin:—**

“(a), (b) and (c). The Hon'ble Member is referred to page 393 of the Quarterly Civil List for Bengal corrected up to 1st April, 1920. The officiating Director of Agriculture draws, pending the determination of his pay according to the scheme of reorganisation recently sanctioned by the Secretary of State, Rs. 1,250 per mensem as officiating Director and a duty allowance of Rs. 200 per mensem in connection with certain advisory and research fibre work undertaken on behalf of the Government of India. He is not actually the officiating Director of Fisheries; that post has been kept vacant pending the selection by the Secretary of State of an officer as Director of Fisheries. Meanwhile however the Fishery Department has again been placed under the control of the Director of Agriculture, to whose charge it previously appertained. The officiating Director of Agriculture draws no special allowance for this work. This arrangement has been made as a matter of administrative convenience, because, owing to casualties in the Fisheries Department, there is no one in it at present fit to take charge of it even temporarily. Government are not aware that the officiating Director of Agriculture has any training or experience regarding fishery matters.

(d) Apart from his advisory work in this connection, the chief item of fibre work undertaken for the Government of India is an investigation into the production of improved sunn hemp fibre.

(e) At present it involves no touring; it was on this understanding that the arrangement was made.

(f) (i) Yes.

(ii) In order to obtain a post in the Zoological Survey of India, involving more congenial work.

(iii) D. Sc. and considerable zoological experience.

(g) The Hon'ble Member is referred to page 393 of the Civil List corrected up to 1st April, 1920.”

Boiler, factory

nuisance  
inspectors.

(a) Will the Government be pleased to state—

(i) why no Indians have been appointed as boiler inspectors, factory inspectors and smoke nuisance inspectors in Bengal;

(ii) what qualifications are required of candidates for these posts; and

(iii) what is the procedure for their appointment thereto?

(b) Is it a fact that the Public Services Commission recommended complete Indianisation of these services?

(c) If so, are the Government considering the desirability of taking steps to give effect to this recommendation?

(d) Will the Government be pleased to state whether opportunities will be given to Indians to fill up the two new posts of factory inspectors?

*Questions and Answers.*

**Answer by the Hon'ble Mr. Marr:—**

**FACTORY DEPARTMENT.**

- " (a) (i) Because no qualified Indian has so far been available.
- (ii) A liberal education, a good theoretical knowledge of engineering science and a thorough practical experience in mechanical engineering; also a general knowledge of the principles of sanitation. In the case of selections in India, practical experience of factories in the country, without experience in Europe, will suffice. Age limit 30 years.
- (iii) The procedure is to advertise the vacancies locally, and if suitable men are not available, to apply to the Secretary of State to recruit men in the United Kingdom.
- (b) No. The Public Services Commission recommended that Inspectors of Factories should ordinarily be recruited in India after advertising vacancies, but that recruitment should not necessarily be confined to natives of India; further that, only if no qualified candidate is procurable locally should steps be taken for the appointment of officers from Europe, the selection being made after advertisement and with the advice of the Home authorities.
- (c) Effect has already been given to the Commission's recommendations.
- (d) In an advertisement of September, 1919, an Indian was specifically mentioned as required to fill a factory inspectorship, but no suitable candidate came forward."

**BOILER AND SMOKE-NUISANCES INSPECTORS.**

- " (a) (i) Indians with required qualifications are not at present available.
- (ii) Candidates are required to hold first class Board of Trade Certificates.
- (iii) Appointments are made direct from the qualified candidates in this country. Vacancies are advertised in the papers.
- (b) No. The Public Services Commission recommended that all appointments of boiler inspectors should continue to be made in India, but that selection should not be absolutely limited to statutory natives of India. It was also recommended that it should be made clear in the rules that Indians are eligible for appointment. The appointment of Smoke Nuisances Inspectors was not considered by the Public Services Commission.
- (c) The point does not arise."

(b) In view of the possible effect of such action taken in conjunction with the removal of restrictions on the inter-provincial movement of rice, are the Government considering the desirability of taking steps to ensure that the Bengal stock of rice is not drawn upon to an unusual extent by the wheat-consuming provinces?

(b) What action has been taken in Bengal?

(c) How does the action taken by Government compare with that taken by other provinces?

*Questions and Answers.***Answer by the Hon'ble Mr. Marr:—**

(1) Are the Government aware—

(a) that when the Mymensingh-Bhairab Bazar Railway was floated in 1914, the promoters invited the public to subscribe the capital on the undertaking that the system would include 15 miles of railway line between Jerria Janjail and Bagmara, and that up to date this portion of the railway has not yet been started, nor has the land ever been acquired for it;

The  
Mymensingh-  
Bhairab Bazar  
Railway.

(b) that this portion of the Mymensingh-Bhairab Bazar Feeder Railway was projected to serve a tract of country, of which Sushung Durgapur is the chief collecting centre, which yearly exports several lakhs of maunds of rice, and large quantities of timber, bamboos and other forest produce;

(c) that all such commodities as the above are realizing famine prices in the interior of the Mymensingh district, and that at present owing to the heavy cost of cartage to Jerria Janjail the bulk of the produce of the tract of country referred to above is diverted by river eastwards and is eventually distributed in areas on the outskirts of the district without benefit to the central portion or the populous capital of Mymensingh; and

(d) that although the Mymensingh-Bhairab Bazar Railway has been completely opened for traffic for only a few months, the traffic receipts on the portion which has been built already show a return of between 5 per cent. and 6 per cent. on the capital cost, and that these results constitute a record in the history of railways in India?

(2) Having regard to the benefit and relief that the district of Mymensingh would enjoy by the completion of the line to Bagmara, are the Government considering the desirability of moving the Railway Board to take steps without further delay to enforce the fulfilment of the obligations which were undertaken by the promoters and Managing Agents in the prospectus, by which they invited the public of the district to subscribe the capital?

(3) Are the Government considering the desirability of asking the Railway Board to allot funds for the acquisition of land during the cold weather season, 1920-21, and thereby obviate further delay due to land not being acquired?

**Answer by the Hon'ble Mr. Cowley:—**

"While recognising that the construction of the Janjail-Bagmara branch of the Mymensingh-Bhairab Bazar Railway would prove of benefit to the country which it would serve, Government think it unnecessary at present to move the Railway Board in the matter.

The Railway is owned by the Mymensingh-Bhairab Bazar Railway Company and Government consider that the Company may be relied on to move the Railway Board as soon as it is in a position to complete the construction of the branch."

The Imperial  
Agricultural  
Service of  
Bengal.

(a) Is it a fact that there are two leave vacancies in the Imperial Agricultural Service of Bengal and that the Deputy Director of the Eastern Circle has been appointed to act in both these vacancies in addition to his own duties?

(b) Is it a fact that members of the Provincial Service in Bengal are systematically deprived of leave vacancies in the Superior Agricultural Service, even if their academic qualifications are equivalent to those of the European members?

(c) Is it a fact that the members of the Imperial Agricultural Service are financially benefited when they hold charge of posts in addition to their own duties and that the merits and demerits of the Indian Officers are judged by these officers?

(d) Will the Government be pleased to state—

(i) whether any officer of the Provincial Service has ever been appointed to any of these leave vacancies; and

(ii) if not, why not?

(e) (i) Is it a fact that Mr. Finlow has officiated as Chemist and Botanist, Mr. Hector as the Chemist and Fibre Expert and Mr. McLean as Chemist and Botanist in addition to their respective duties?

(ii) If so, had they proved efficient in regard to the duties which were required of them in their respective appointments?

(f) What are the essential qualifications required for members of the Expert Section?

(g) Is it a fact that academic distinctions and capacity to conduct research in subjects, with special reference to Agriculture, are the chief requirements?

(h) Are the testimonials given by the Professors, under whom the Provincial Service men were trained, of any value in determining the capabilities of Indian officers in respect of the above two qualifications or does the Director finally decide this question, and, if so, is he qualified to do so without giving them a trial?

(i) Is it a fact that in other provinces, men from Cornell, etc., with similar qualifications as men of the Provincial Service in this Province are officiating as Chemists, Botanists, Entomologists, etc., in the Imperial vacancies?

(j) Is it a fact that in Bengal there are three or four men with excellent training in Chemistry and Botany in some of the best universities of England and America?

(k) If so, are the Government considering the desirability of giving some of these men a fair trial in the future leave vacancies?

**Answer by the Hon'ble Mr. McAlpin:—**

"(a) There are two vacancies in the research branch of the Imperial Agricultural Service in Bengal, one a vacancy in consequence of the temporary deputation of the Economic Botanist as Imperial Economic Botanist, and the other in consequence of the transfer of the Agricultural Chemist from the province. The Deputy Director of the Eastern Circle is in charge

of the current duties of the office of the Agricultural Chemist pending the filling up of the appointment by the Secretary of State; but he has not been appointed to officiate as Agricultural Chemist. Until recently he was also in charge of the current duties of the office of the Economic Botanist, but Mr. D. Datta, a member of the Provincial Service, has now been temporarily appointed to officiate, subject to the control and direction of the permanent Economic Botanist.

(b) No. Rai Rajeswar Das Gupta Bahadur, when in the Provincial Service, officiated in the Imperial Service as a Deputy Director.

(c) The answer to the first part of the question is in the affirmative. As regards the second part of the question, it is their duty to judge the merits and demerits of the officers employed under them, but the final decision rests with Government.

(d) (i) and (ii) The Hon'ble Member is referred to the answer to (a), (b) and (k).

(e) (i) The answer to the question is in the affirmative as regards Messrs. Finlow and Hector, but not altogether so as regards Mr. McLean. In regard to Mr. McLean the Hon'ble Member is referred to the answer to (a).

(ii) Yes; but the scope of the research work has naturally been restricted.

(f) and (g) For information on these questions, the Hon'ble Member is referred to the Report of the Public Services Commission.

(h) Obviously when such an officer enters the service for the first time, academical qualifications but not necessarily testimonials of professors, are essential. But when he has entered the service, his academical or other previous qualifications are ordinarily of less importance than the quality of the work actually done by him in Government service. Any final decision rests with Government.

(i) Government are not in a position to answer this question fully. They have only definite information regarding two such cases.

(j) There are four men who took degrees abroad. Two took botany as one of their subjects and a third took chemistry.

(k) The Hon'ble Member is referred to the answers to (a) and (b). Apart from the fact that orders are awaited on the general question in connection with the recommendations of the Public Services Commission, Government cannot give any undertaking that the men in question who belong to the administrative branch will be given a trial in the research branch of the service; it is under contemplation to form a provincial research branch; and it will be a question in each individual case as to whether the officer has shown himself fit by his work in the department to be tried or, given promotion out of the branch for which he was recruited. In this connection the Hon'ble Member is referred to the answer to question No. 5 (unstarred) put by the Hon'ble Rai Mahendra Chandra Mitra Bahadur on the 7th April, 1920, in which it was stated that the research and administrative branches of the Department are ordinarily treated as distinct."

Scarcity and distress in part of Presidency of Bengal.

Will the Government be pleased to make a statement regarding the extent of scarcity and distress prevailing in different parts of the Presidency and the steps proposed to be taken to alleviate the same?

Answer by the Hon'ble Mr. McAlpin:—

“ Apart from distress on account of high prices, there is some distress in the Gopalganj and Madaripur subdivisions in the district of Faridpur. For information regarding this, the Hon'ble Member is referred to the statement laid on the table in reply to starred question No. X by the Hon'ble Rai Sri Nath Ray Bahadur. The *bhadralok* on small fixed incomes and the poorer classes are the principal sufferers from the present high prices. There is, however, reason to believe that the larger portion of the cultivating population are benefiting from the high prices obtainable for their produce. There is no scarcity of foodstuffs. The direct measures which Government have taken to steady the price of rice and to provide a comparatively cheaper rice are—

- (1) to arrange for a largely increased supply of Burma rice for consumption in Bengal at controlled rates in accordance with the procedure adopted last year; and
- (2) to arrange with the Government of India that there should be no export of rice to foreign countries from Bengal in the quarter July to September.

For further information the Hon'ble Member is referred to the statement which will be made in connection with analogous resolutions to be moved at the present Council meeting.”
